A Genealogical Study

Authored and Compiled by  
Steven Wood Collins

WordPress.com blog articles (220)

Roster of All Ancestors Studied (661)  
Other Study Exhibits

## *Preface*

Due to the massive size of the original PDF version (145.7 MB, over 5,000 pages), an internet-linked version was developed, mainly because creating an ePub for this publication proved so problematic to develop as to represent an exercise in futility (exceptionally complicated file to say the least). Also, since *WordPress* blog files are subject to revision as a result of new research, the file link protocol assures ebooks are always up-to-date. A compilation of new blog posts will be published on a quarterly basis.

The Table of Contents presents links to individual *WordPress* blog articles listed.

The Facebook page link at the end provides access to new and updated articles, post-publication of this volume (questions or other concerns about this publication can be registered there).

Following the TOC, a list provides Google Drive download links to study and research exhibits.

## *Table of Contents – WordPress.com links*
